COCKROACH KILLER

AEROSOL INSECTICIDE **EFFECTIVE ON COCKROACHES**

- Non flammable formulation
- 1 can treats 20 to 25 m²
- Non-toxic to humans and animals
- One-piece aluminum can, 400 ml
- Active ingredient with long-term residual effect
- Sticks to the legs and contaminates the nest

Applications:

For the treatment of the cabin, galleys, holds, catering areas, during deep in cleaning or maintenance. To be sprayed regularly on the surfaces in a crisscross pattern, as a deep-in treatment once a week during 3 weeks, then as routine measure at intervals of 2 or 3 weeks every 3 months.
